

# VRS-4150™ RACE & PERFORMANCE SERIES CARBURETORS

Edelbrock's VRS-4150 line of race and performance carburetors is packed with features that will appeal to racers, engine builders and carb tuners, as well as the hot street enthusiast looking to improve performance.

- Four adjustable fuel circuits
- Taller one-piece main body for better mixing
- Billet metering blocks
- Dual 30cc or 50cc accelerator pumps
- Mechanical secondaries
- Intermediate circuit on all four bores
- Annular boosters on 750 & 850 models
- 20% larger capacity fuel bowls
- Notched and corner cut Nitrophyl floats
- Includes jet extenders on secondaries
- Externally adjustable auxiliary idle
- Two (2) 3/8 vacuum tubes
- One (1) 3/16 timed vacuum tube
- Fuel bowl drain screws
- Provisions for 700R4 TV cable hook-up
- Provision for standard GM 3-wire TPS
- 4 corner idle mixture screws
- Threaded idle discharge and bleed jets for ultimate adjustability
- Fits 4150 or 4500 style manifolds
- Pinned throttle shafts ride on Oillite bushings
- Power valve protection circuits

Each VRS-4150 carburetor is factory calibrated to give you stunning performance right out of the box. It is the perfect solution to either replace your outdated performance carburetor or to start a fresh engine build. Available in popular sizes to feed any performance engine.
